PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, together with a brief listing of the materials principally contained in each part, the symbols used to distinguish the materials, and the prices of semi-annual issues and of the annual subscription to the complete *Catalog*.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for

renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 2

Periodicals (Part 2) lists foreign and domestic periodicals registered in Class B. Also included are renewals of copyrights originally registered in Class B. Each registration is described in a main entry and cross-references are provided to facilitate the location of the main entries.

Part 2 is composed of three sections: Periodicals, Renewals, and New Periodicals. The first two sections list main entries arranged alphabetically by the titles appearing at the beginning of the entries. Interfiled with the main entries are cross-reference entries beginning with other titles for which a searcher might look; in each case, the cross-reference refers the searcher to the title under which the main entry can be found. The third section is an alphabetical list of the titles of those periodicals of which issues in the first year of publication were registered.

Cross-references cover variant forms of the titles used as headings of the entries and, in some instances, other titles associated with the periodical or with specific issues. Periodicals which are issued by societies, institutions, and other corporate bodies, and which bear such nondistinctive titles as *Transactions of*, *Journal of*, etc., are filed by the name of the issuing body; e. g.,

AMERICAN MEDICAL ASSOCIATION. JOURNAL.
NATIONAL ASSOCIATION OF SECONDARY
SCHOOL PRINCIPALS. BULLETIN.

A title which consists of two or more titles connected by such phrases as *combined with*, *incorporating*, etc., appears as follows:

FLYING MODELS—FLYING ACES AND AIR WORLD.

For periodicals other than newspapers, each main entry for currently registered works includes, in addition to the heading, the following information descriptive of the work, if available and applicable:

- 1) Changes in the title recorded by the phrases *Continuing* and *Continued as*.
- 2) Volume number.
- 3) Year of publication.
- 4) Issue number and issue date or issue title.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) Name of the copyright claimant.
- 2) Publication date for each issue as given in the application.
- 3) Registration number for each issue.

For newspapers a condensed entry is used which includes a statement of frequency of issue but gives data only for the first and last issues in each unbroken sequence.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the copyright claimant as given in the application and in the copy of the work. Variations between issues of periodicals are also noted.

For renewal registrations the information in the main entries which is descriptive of the work is similar to that included for currently registered works. The information relating to the claim of copyright includes:

- 1) Date of original copyright.
- 2) Original registration number.
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant.
- 6) An abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

PREFACE

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

Each annual volume is subdivided to represent the classes of material listed in section 5 of Title 17 of the *United States Code*. The table at the end of this preface shows the organization of the *Catalog*, the symbols used in the registration numbers to distinguish the classes, and the prices of the semi-annual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

Each copyright registration listed in the *Catalog* is recorded in a main entry, which includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, the copyright date, the copyright registration number, etc.). Cross-references, and, in some cases, indexes, are provided.

The name of the copyright claimant in each entry is that given in the application for registration. Available information in the records of the Copyright Office relating to subsequent changes of ownership can be obtained upon request and upon payment to the Register of Copyrights of the fee

specified in the law for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of Title 17 of the *United States Code*, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) of the regulations of the Copyright Office, published in the Code of Federal Regulations, 1949 Edition, which provides for the deposit of identifying reproductions in lieu of the work itself. To distinguish foreign works, for which two copies have been deposited under section 215 of Title 17 of the *United States Code*, a zero immediately following the class symbol in the registration number has been used.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the *Register of Copyrights*.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should

be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

In the following table, the symbols listed represent the materials principally contained in each part; for other materials, including renewals (always designated by the symbol R), which may be included in a particular part and for a more complete statement of contents, the respective "How-to-Use" section should be consulted. In a registration number a zero immediately following the symbol, i. e., AF0, EF0, indicates that two copies of a foreign publication have been deposited with a catalog card and application for registration, under the provisions of section 215 of Title 17 of the *United States Code*.

HOW TO USE THE CATALOG OF COPYRIGHT ENTRIES, PART 2

Periodicals (Part 2) lists foreign and domestic periodicals registered in Class B. Also included are renewals of copyrights originally registered in Class B. Each registration is described in a main entry and cross-references are provided to facilitate the location of the main entries.

Part 2 is composed of three sections: Periodicals, Renewals, and New Periodicals. The first two sections list main entries arranged alphabetically by the titles appearing at the beginning of the entries. Interfiled with the main entries are cross-reference entries beginning with other titles for which a searcher might look; in each case, the cross-reference refers the searcher to the title under which the main entry can be found. The third section is an alphabetical list of the titles of those periodicals of which issues in the first year of publication were registered, so far as this fact is known to the Copyright Office.

Cross-references cover variant forms of the titles used as headings of the entries and, in some instances, other titles associated with the periodical. Periodicals which are issued by societies, institutions, and other corporate bodies, and which bear such nondistinctive titles as *Transactions of*, *Journal of*, etc., are filed by the name of the issuing body; e. g., AMERICAN MEDICAL ASSOCIATION. JOURNAL. NATIONAL ASSOCIATION OF SECONDARY SCHOOL PRINCIPALS. BULLETIN.

A title which consists of two or more titles connected by such phrases as *combined with*, *incorporating*, etc., appears as follows:

FLYING MODELS—FLYING ACES AND AIR WORLD.

For periodicals other than certain newspapers (see below), each main entry for currently registered works includes, in addition to the heading, the following information descriptive of the work, if available and applicable:

- 1) Changes in the title recorded by the phrases *Continuing* and *Continued as*.
- 2) Volume number
- 3) Year of issue.
- 4) Issue number, issue date, or issue title.

Information relating specifically to the claim of copyright is preceded by the copyright symbol © and includes the following:

- 1) Name of the copyright claimant.
- 2) Publication date for each issue as given in the application.
- 3) Registration number for each issue.

For newspapers which are regularly published more often than weekly, a condensed entry is used which includes a statement of frequency of issue but gives data only for the first and last issues registered during the period covered. Issues missing from the regular sequence are listed in parentheses following the statement of frequency of issue.

An explanatory note is added to the main entry whenever it is necessary to indicate a variation in information which relates to the publication date or the name of the copyright claimant as given in the application and in the copy of the work. Variations between issues of periodicals are also noted.

For renewal registrations the information in the main entries which is descriptive of the work is similar to that included for currently registered works. The information relating to the claim of copyright includes:

- 1) Date of original copyright.
- 2) Original registration number.
- 3) Renewal registration number.
- 4) Date of receipt of the renewal application.
- 5) Name of the renewal claimant.
- 6) An abbreviation in parentheses representing the applicant's statement of the basis of his renewal claim; e. g., John Doe (NK) indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.
